

Go to www.noosa.qld.gov.au, hover your cursor over 'Planning & Development'. A drop-down menu will appear, in it you will see the sub-group 'Searches'; select 'Mapping Search' from that sub-group. If you are accessing the maps via the project page on Your Say Noosa, please skip to the third slide.

A new website will open. Click on 'Noosa Plan 2020'.

Noosa Interactive Mapping

Welcome to the **Noosa Shire Council** online mapping system.

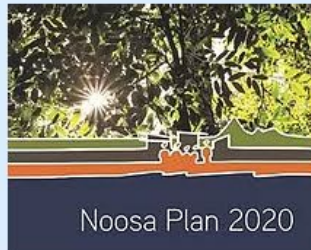

Our online mapping allows users to view:

- property and land information
- stormwater
- Noosa Planning Scheme
- waste services
- disaster management

Due to the number of different layers available for viewing, we have created a range of different mapping themes. Please select the theme that is most suitable for your situation below.

Visit our [How to Videos](#) (above tab) for extra assistance with using the interactive online mapping system.

NOOSA PLAN 2020

Planning scheme for Noosa Shire

Noosa Plan 2020 came into effect 31 July 2020 and replaced all aspects of the previous planning scheme, including the mapping.

View the maps for the [Noosa Plan 2020](#)

For assistance navigating the maps click on the "how to videos" tab above for tutorials.

For more information about the plan visit www.noosa.qld.gov.au/noosa-plan-2020

The 'Noosa Plan 2020' module will automatically be selected. The layers that belong to this module can be turned on and off, using the check boxes next to each. If a layer has a '+' sign, this means that layer contains sub-layers, and it can be expanded to show these. The 'Noosa Plan 2020' module must be selected in order to view these particular layers. Please note, some layers can take longer than others to be turned on, due to the volume of data processed.

Once you have found a location of relevance to you, and you have the relevant hazard layers turned on, you can create a printable PDF of the map showing these features. Near the top of the page, select 'Export', then select 'Print' (red circle), select 'Raster', and then choose the 'Scale' calibration that best suits your needs. Once you have done that, select 'Print' (blue circle). The window or new browser tab (depending on the internet browser software you use) will appear, from there you can select to download the PDF.
